

Doddington & Rollo Newsletter

MARCH 2019

Welcome to the first Doddington & Rollo newsletter, providing regular updates for residents about what is going on in your community.

This month we are delighted to announce that Sandra Evangelista has been appointed as Senior Community Engagement Officer for the estate.

Sandra will be known to many from her previous role as Resident Participation Officer. She said: "I am really excited to have this opportunity to work closer with the residents and make a real difference to the local community. I look forward to meeting you personally at some of the meetings and drop-in sessions we have arranged for the coming weeks."

Following several meetings with residents association groups, and taking on board feedback, the council is now reviewing the use of the building in Doddington Square. The proposal is now not to turn it into a drug and alcohol centre so a business case is now being developed for how best the building could be used.

No formal decisions have been made and the council is keen to seek as many views and ideas about the future use as possible. Given the arrangement of the building the council is keen to explore the idea of providing a range of services benefiting the whole community, and including a wide range of options.

Here are some suggestions of how it could be used:

Health and wellbeing

Education, employment and skills

Business and enterprise

An activity hub for all ages

Environment and sustainability centre

Drop in centre for advice and community services

We want your views...

It is hoped all residents will take the opportunity to be involved in this process by putting forward their ideas for the use of this space.

Please attend a drop-in and let us know your views!
